Agency	Funding	State Rank
National Institutes of Health	\$433,167,000	16
National Cancer Institute	\$40,745,000	17

Impact on Georgia Economy

On average, in fiscal year 2007, each dollar of NIH funding generated more than twice as much in state economic output. That is, an overall investment of \$22.8 billion from NIH generated a total of \$50.5 billion in new state business activity in the form of increased output of goods and services.

In fiscal year 2007:

- Business activity generated per dollar of NIH funding in Georgia was **\$2.36**.
- Total new business activity as a result of NIH funding was **\$883 million**.
- NIH grants and contracts created and supported more than **6,774** jobs that generated wages in excess of **\$318 million** in Georgia. The average wage associated with the jobs created was **\$46,924**.

The Association of American Medical Colleges reports that the member medical schools and teaching hospitals in the state had a combined economic impact of \$10.1 billion and a total employment impact of 78,000 in 2005.
