NIH FUNDING

A Strong National Priority⁴

Congress has increased the NIH budget by \$14.9 billion—more than 49 percent—over the last seven fiscal years. We are advocating for an increase of \$4.1 billion for the NIH in FY 2023.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.
