

# **VERMONT**

Estimated 2021 Population<sup>1</sup>: 645,570

#### **IMPACT**

### **Economic Impact of Research<sup>2</sup>**

- United for Medical Research reports that in Fiscal Year 2021, NIH funded awards totaling \$66.4 million in Vermont, supporting 1,026 jobs and \$146 million in economic activity.
- In FY 2021, the biopharmaceutical industry in Vermont supported 2,340 jobs and 230 businesses.

### Impact of Cancer in Vermont<sup>3</sup>

- In 2022, an estimated 1,918,030 new cancer cases will be diagnosed in the United States. Of these cases, 4,260 will reside in Vermont.
- In 2022, an estimated 609,360 Americans will lose their lives to cancer, including 1,460 residents of Vermont.

# **NIH FUNDING**

## A Strong National Priority<sup>4</sup>

Congress has increased the NIH budget by \$14.9 billion—more than 49 percent—over the last seven fiscal years. We are advocating for an increase of \$4.1 billion for the NIH in FY 2023.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.

#### **MEMBER SPOTLIGHT**

## The University of Vermont Cancer Center

#### The University of Vermont Cancer Center is

Vermont's only academic cancer center. Founded in 1974, the organization spans across The University of Vermont (UVM) and The University of Vermont Medical Center. As national leaders in cancer research, UVM Cancer Center researchers and clinicians are dedicated to improving the lives of cancer patients in Vermont, Northern New York, and beyond through a collaborative and innovative approach to research, education, and compassionate patient care.
