

# **VERMONT**

Estimated 2022 Population<sup>1</sup>: 647,064

#### **IMPACT**

## **Economic Impact of Research<sup>2</sup>**

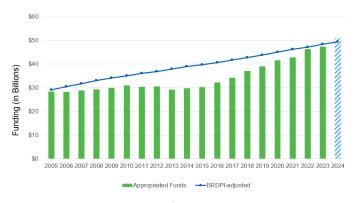

- United for Medical Research reports that in Fiscal Year 2022, NIH funded awards totaling \$66.2 million in Vermont, supporting 1,026 jobs and \$146 million in economic activity.
- In FY 2022, the biopharmaceutical industry in Vermont supported **2,697** jobs and **336** businesses.

## Impact of Cancer in Vermont<sup>3</sup>

- In 2023, an estimated 1,958,310 new cancer cases will be diagnosed in the United States. Of these cases, 4,370 will reside in Vermont.
- In 2023, an estimated 609,820 Americans will lose their lives to cancer, including 1,460 residents of Vermont.

# **NIH FUNDING**

## A Strong National Priority<sup>4</sup>

Funding for NIH has increased by \$17 billion, or nearly 58 percent, from FY 2015 to FY 2023. Due to this strong support, NIH is able to support more groundbreaking science – but we can't afford to stop now.

We are advocating for \$50.924 billion in FY 2024 appropriations for the NIH.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.

### **MEMBER SPOTLIGHT**

## **The University of Vermont Cancer Center**

### The University of Vermont Cancer Center is

Vermont's only not-for-profit comprehensive clinical and research cancer center. Founded in 1974, the organization spans across The University of Vermont (UVM) and The University of Vermont Medical Center. As national leaders in cancer research, UVM Cancer Center researchers and clinicians are dedicated to improving the lives of cancer patients in Vermont, northeastern New York, and across New England through research, clinical care, community outreach, and education.
