WISCONSIN

Estimated 2022 Population¹: 5,892,539

IMPACT

Economic Impact of Research²

- United for Medical Research reports that in Fiscal Year 2022, NIH funded awards totaling $554.3 million in Wisconsin, supporting 9,067 jobs and $1.329 billion in economic activity.
- In FY 2022, the biopharmaceutical industry in Wisconsin supported 40,654 jobs and 2,103 businesses.

Impact of Cancer in Wisconsin³

- In 2023, an estimated 1,958,310 new cancer cases will be diagnosed in the United States. Of these cases, 37,640 will reside in Wisconsin.
- In 2023, an estimated 609,820 Americans will lose their lives to cancer, including 11,670 residents of Wisconsin.

NIH FUNDING

A Strong National Priority⁴

Funding for NIH has increased by $17 billion, or nearly 58 percent, from FY 2015 to FY 2023. Due to this strong support, NIH is able to support more groundbreaking science – but we can’t afford to stop now.

We are advocating for $50.924 billion in FY 2024 appropriations for the NIH.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.

WISCONSIN MEMBER CENTERS

Medical College of Wisconsin Cancer Center

The Medical College of Wisconsin Cancer Center engages over 300 researchers and physicians to develop novel therapies for today’s toughest cancer challenges, including pancreatic and intractable hematologic cancers.

University of Wisconsin Carbone Cancer Center

With over six decades of breakthroughs, the University of Wisconsin Carbone Cancer Center—an NCI-Designated Comprehensive Cancer Center—unites researchers from across the University of Wisconsin Madison campus and revolutionizes approaches to cancer prevention, diagnosis, and treatment.
