CANCER RESEARCH IS SAVING LIVES

CALIFORNIA

Estimated 2022 Population[1]: 39,029,342

IMPACT

Economic Impact of Research[2]

- United for Medical Research reports that in Fiscal Year 2022, NIH funded awards totaling **$5.477 billion** in California, supporting **86,470** jobs and **$15.37 billion** in economic activity.

- In FY 2022, the biopharmaceutical industry in California supported **330,598** jobs and **14,078** businesses.

Impact of Cancer in California[3]

- In 2023, an estimated 1,958,310 new cancer cases will be diagnosed in the United States. Of these cases, **192,770** will reside in California.

- In 2023, an estimated 609,820 Americans will lose their lives to cancer, including **59,830** residents of California.

NIH FUNDING

A Strong National Priority[4]

Funding for NIH has increased by $17 billion, or nearly 58 percent, from FY 2015 to FY 2023. Due to this strong support, NIH is able to support more groundbreaking science – but we can't afford to stop now.

We are advocating for $50.924 billion in FY 2024 appropriations for the NIH.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.

CALIFORNIA MEMBER CENTERS

Cedars-Sinai Cancer

City of Hope Comprehensive Cancer Center

Loma Linda University Cancer Center

Salk Institute Cancer Center

Sanford Burnham Prebys Medical Discovery Institute

Stanford Cancer Institute

UC Davis Comprehensive Cancer Center

UC San Diego Moores Cancer Center

UCI Chao Family Comprehensive Cancer Center

UCLA Jonsson Comprehensive Cancer Center

UCSF Helen Diller Family Comprehensive Cancer Center

USC Norris Comprehensive Cancer Center
