

CANCER RESEARCH IS SAVING LIVES

KANSAS

Estimated 2022 Population¹: 2,937,150

IMPACT

Economic Impact of Research²

- United for Medical Research reports that in Fiscal Year 2022, NIH funded awards totaling **\$129.1 million** in Kansas, supporting **2,310 jobs** and **\$379 million** in economic activity.
- In FY 2022, the biopharmaceutical industry in Kansas supported **18,376 jobs** and **1,565 businesses**.

Impact of Cancer in Kansas³

- In 2023, an estimated 1,958,310 new cancer cases will be diagnosed in the United States. Of these cases, **16,840** will reside in Kansas.
- In 2023, an estimated 609,820 Americans will lose their lives to cancer, including **5,690** residents of Kansas.

NIH FUNDING

A Strong National Priority⁴

Funding for NIH has increased by \$17 billion, or nearly 58 percent, from FY 2015 to FY 2023. Due to this strong support, NIH is able to support more groundbreaking science – but we can't afford to stop now.

We are advocating for \$50.924 billion in FY 2024 appropriations for the NIH.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.

MEMBER SPOTLIGHT

The University of Kansas Cancer Center

The University of Kansas Cancer Center was founded in 2002 and is the state's only NCI-Designated Comprehensive Cancer Center. KU Cancer Center's mission is to transform cancer research and clinical care delivered in Kansas and western Missouri. KU Cancer Center has three interdisciplinary research programs: Cancer Biology; Cancer Prevention & Control; and Drug Discovery, Delivery & Experimental Therapeutics.
