

CANCER RESEARCH IS SAVING LIVES

UTAH

Estimated 2022 Population¹: 3,380,800

IMPACT

Economic Impact of Research²

- United for Medical Research reports that in Fiscal Year 2022, NIH funded awards totaling **\$274.5 million** in Utah, supporting **5,662 jobs** and **\$773 million** in economic activity.
- In FY 2022, the biopharmaceutical industry in Utah supported **40,347 jobs** and **1,830 businesses**.

Impact of Cancer in Utah³

- In 2023, an estimated 1,958,310 new cancer cases will be diagnosed in the United States. Of these cases, **13,840** will reside in Utah.
- In 2023, an estimated 609,820 Americans will lose their lives to cancer, including **3,710** residents of Utah.

NIH FUNDING

A Strong National Priority⁴

Funding for NIH has increased by \$17 billion, or nearly 58 percent, from FY 2015 to FY 2023. Due to this strong support, NIH is able to support more groundbreaking science – but we can't afford to stop now.

We are advocating for \$50.924 billion in FY 2024 appropriations for the NIH.

The Biomedical Research and Development Price Index (BRDPI) measures inflation in the cost of biomedical research. The BRDPI line in the chart above shows the level of NIH funding by year had it kept up with this measure.

MEMBER SPOTLIGHT

Huntsman Cancer Institute University of Utah

Huntsman Cancer Institute (HCI) at the University of Utah is a nationally recognized research center and treatment hospital in Salt Lake City. The cancer center serves patients with all types of cancer, who come from throughout the Mountain West, including Utah and parts of Idaho, Montana, Nevada, and Wyoming. HCI doctors and scientists include world-renowned experts dedicated to the highest quality standards and driven by the commitment to improve the lives of people affected by cancer.
